EDMONTON, ALBERTA, WEDNESDAY, MAY 12, 1954

St. Catherine's Hospital News

LAC LA BICHE — Patients at St. Catherine's Hospital from May 1 to May 5 are as follows: Rene Labby, Lac la Biche; Rostyk Sadownik, Grassland; Paul Michetti, Hylo; Mrs. Annie Kanzig, Grassland; Margaret St. Jean, Plamondon; Karen M. Olson, Lac la Biche; Emerise Ladouceur, Lac la Biche; Mrs. Norman Cardinal, Gaslan; Mike Andrus'ak, Donatville; Mrs. Talimon Kowalchuk, Boyle; John Tulick, Lac la Biche; John Henry Renneman, Donatville; Mrs. H. E. Carran, Lac la Biche; Fedor Sorochan, Lac la Biche; Roland Routhier, Mission; Mrs. Romeo Gervais, Lac la Biche; Mrs. Alvey Gauthier, Gourin.

The following births are recorded: Mr. and Mrs. Frank Donofrio, a son, April 29, Lac la Biche. To Mr. and Mrs. Francis Zak, a daughter, April 30, Atmore.

Piquette & Sons Dairy Now In Operation

PLAMONDON — The R. C. Piquette and Sons dairy is now in operation. The first milk delivery of 640 lbs. of milk was made on April 30. It was delivered to customers in Lac la Biche May 1.

Mr. Piquette purchased 16 more cows of grade and pure-bred stock and one bull. They are now milking 24 cows with a two-unit milker and will be milking 30 later on.

The milk-wagon, a jeep driven by Mr. Thomas from the Mission, calls for the milk at 7:30 a.m.

A fully modern milking parlor will be built this summer at an approximate cost of four thousand dollars. The complete dairy will cost about 12 thousand dollars.

Every success is wished to the Piquette family in their new business.

Card And Bingo Party In Aid Of Red Cross

PLAMONDON — A bingo and card party was held in the Plamondon hall on Sunday. The proceeds of \$56.60 were for the Red Cross.

Ladies' first prize was won by Mrs. Dewey, Plamondon; consolation prize was won by Mrs. Rene Menard. Andre Plamondon won the men's first prize, and Mr. Albert Godin won the men's consolation prize.

AURORA THEATRE

Lac la Biche Alberta
PRESENTS

Wednesday, May 12—
6:30 and 9:15

"The Best Years Of Our Lives"

Starring Frederic March, Myrna Loy, Dana Andrews, Virginia Mayo.

Thurs. and Fri., May 13-14—

"The Way of a Gaucho"

(Color) — 8:30

Saturday, May 15—
2:30, 7:00, 9:15

"SIOUX UPRISING"

(Color). Starring Jeff Chandler.

Sunday, May 16—
(Midnight Preview)

of 3-D Feature
"Charge at Feather River"

Mon., Tues., Wed., Thurs.,
May 17, 18, 19, 20—
7:00 and 9:15

"Charge At Feather River"

(Technical 3-D)
Starring Guy Madison, Frank Lovejoy, Helen Westcott.

CHRISTOPHER CHAPMAN, 25-year-old amateur photographer, whose first film, *The Seasons*, has been named the 1953 Canadian Film of the Year. A simple nature film made on an Ontario farm, it brings to the screen the sights and sounds that are commonplace to country folk but which are missed by many others in the rush of modern life. The film was bought by Imperial Oil last year and is being shown on the National Film Board circuit and through the divisional offices of the company.

FIND COLD LAKE IDEAL FOR NEW ARMY TRAINING

COLD LAKE, Alberta—The word is getting around about Cold Lake and airmen are already applying to be posted here, as remote as it is.

Defence Minister Claxton recently inspected the RCAF's new \$30,000,000 weapons range in the Alberta hinterland 150 miles northwest of Edmonton.

Cold Lake is regarded by observers as a good example of what the armed forces are trying to do to persuade servicemen to make a career in the forces instead of returning to civvy street after a limited engagement.

On his week-long tour of western Canada military establishments the first thing Mr. Claxton has wanted to see at various posts are the married quarters, schools and churches.

At first glance, there is little to attract one here. In January, the temperature dipped to 64 below zero and the average reading was 26 below. Construction isn't finished yet and the lumber and dirt are piled high.

The camp takes in 4,600 acres of prairie, scrub and muskeg. The firing ranges, where CF-100 all-weather jet interceptors will test rockets and probably air-to-air guided missiles, are 25 miles north of the main encampment.

Construction of the base started in 1951 and the job is nearly finished. The RCAF C-5 plane carrying Mr. Claxton on his tour was the first big aircraft to use the 8,700-foot runway.

The big hangars have electrically-controlled doors. The main workshop will have doors which fold up into the roof.

Cold Lake is on the same latitude as the southern tip of James Bay. In the summer, it is daylight until 11:30 p.m.

The station is ready for use now but so far only a 50-man advance party under Wing Cmdr. Jack Watts, an armament expert, has moved in. The inflow of airmen will pick up gradually and the aircraft are expected this summer. The \$6,000,000 recreational centre

at the camp has a basketball court, bowling alleys, grocery store, beauty parlor, library, theatre and so on. A swimming pool is to be added later.

The buildings are of steel and brick and tile. The houses for the servicemen and their families—a good many still have to be built—are of various designs. Bright and solid.

Lac La Biche Mission

Rev. Father Hamelin of Edmonton was here recently, visiting every school around the district.

Mr. Louis Bouvier is seriously ill in an Edmonton hospital.

Mrs. Paul Hogan and son Vincent went by bus to Edmonton where they will visit relations.

Mr. Gabriel Ladouceur was a recent business visitor.

Mr. Ronnie Thomas traded his car for a three-ton truck. He plans to haul gravel this summer.

The Lac la Biche lake will be opened for fishing on May 10.

George Cloutier moved to his farm across the lake and is ready for the seeding season.

Mr. Jos Cloutier owns a new tractor.

Flobert Bros. will stay with Paul Parrento family for a while.

Mr. Paul Parrento's brother from Thorhill was here lately.

The Bourrassa Brothers were here last week on business.

Louis Tardif is on the road every day, working with the grader. Now people can travel on a good road.

The people around here will soon be working on the farm.

Gulps Pencil

HARTFORD, Conn.—Working on a fourth-grade arithmetic test, Michael Egan, 8, put his pencil in his mouth while he pondered a puzzle. Without thinking, he gulped it down his throat. It required surgery at St. Francis Hospital to get the pencil out of Michael's stomach.

Board Of Trade To Sponsor Businessmen In Opening Auto and Trailer Court

LAC LA BICHE—The businessmen of Lac la Biche are planning to open an auto and trailer court in this town this summer. They will be sponsored by the Board of Trade.

Their aim in this new project is to attract newcomers to the district and in turn may have them as new residents.

To help publicize this endeavor they plan to have a series of radio programs throughout the summer months, as well as plenty of good advertising through the medium of newspapers. This is another step in the right direction to encourage more tourist trade and in turn will encourage more business enterprises to an up and coming town.

Funds From Concert To Be Used For Tennis Court

CASLAN — A whist drive, bingo and auction sale was held at the Caslan school, May 1. Mrs. Mary Gordey and Master Alex Gordon had the honor of winning the first prizes playing whist, while Mrs. Lily Gordey and Master Nick Krawchuk had the doubtful honor of winning the consolation prizes. Mr. William Koverlug was the auctioneer for the sale.

Approximately \$75.00 clear was realized from this affair as the prizes were donated by the surrounding communities. Proceeds were to go for the construction of a tennis court on the school grounds.

Mrs. Mike Krumpic of Boyle won the set of silverware and a party from Ellscoff whose name is not available at time of writing, won the smoking tray in the raffle.

Mr. Mike Prymych of Thorhill visited in the district recently.

Noral

Mr. and Mrs. Woychuk and Lorraine, Mr. and Mrs. Waselenchuk and Judy, and Miss Dorothy Walter motored to Edmonton on Saturday to attend the baptismal service for little Janice Waselenchuk.

Mr. Alex Holush of Edmonton is visiting at the Woychuk home this week.

Little Rose-Marie Kotch is a patient in the Lac la Biche hospital.

Fire Demolishes Farm Home, Contents

LAC LA BICHE MISSION—A fire occurred in the early hours of Tuesday, May 6, resulting in total destruction of the home of John Langevin.

Mr. Jos Lengevin was cleaning around the house and when he saw the blaze it was too late. When help arrived at the scene it was impossible to save either the building or contents and the men concentrated their efforts on saving the barn.

Mr. A. Fortier rescued Mr. Langevin who was in the basement. The smoke was so dense he could not come out.

The loss is considerably heavy and no insurance was carried.

District Farmer Visits Salt Mine

EGG LAKE—Joseph L'Heureux who left the first week of April for a trip to Saskatchewan, has returned home. He visited the salt mine at Unity, Sask, and was interested to see how the salt is mined and how the salt blocks are made.

He also saw the Saskatchewan government's Power Plant in Unity. He went to North Battleford and saw the Western Development Museum. There he saw the first machines that came to western Canada, like threshing machines, steam engines. He also visited Kyle, White Bear, Beachy, Rosetown and Elrose.

Joe is interested in the 4-H clubs, as he belongs to one himself, so he looked at some of the calves of the Villier, Sask. club.

On his way back, he stopped at the farm of Mr. Belzil, master farmer of St. Paul, and took pictures of the farm.

The other places Joe visited were Lloydminster, where he visited the oil fields. In Vermilion he was interested in the Coke factory, and the power plant that runs by water power.

Joe reports a wonderful time and made 2,300 miles in the round trip.

Easter holidays were spent with his sister and brother-in-law, Mr. and Mrs. James Rudiger, Adanac, Sask.

Trapper To Hang At Fort Smith

EDMONTON—The appeal against the second death sentence imposed on Frederick Cardinal, 46-year-old Arctic trapper, has been dismissed by the appellate division of the Supreme Court of Alberta.

Cardinal will be hanged June 1 at Fort Smith, the administrative centre for the Northwest Territories.

"COUNTRY LIFE" SUPPLEMENT STARTS THIS WEEK

We are proud to present to our readers the first issue of "ALBERTA COUNTRY LIFE," a weekly news-magazine supplement you'll receive each week, at no extra charge.

In it you'll find many of the features that have already become favourites with our readers. New features and news about Alberta of particular interest to farm families will be added from time to time.

Together with the local news you'll find "Country Life" features make this paper an interesting visitor to your home, eagerly awaited by every member of your family.

Why not drop us a line and tell us what you think of the paper. Give us your ideas on how it might be improved. We'll be glad to hear from you!

THE EDITOR.

WAS HIS FACE RED?

RICHMOND, Va. — T. Coleman Andrews, director of Federal tax collections, while punctual in filing his Federal income tax returns, slipped up on his Virginia taxes to the tune of a \$25 fine. "Just an oversight," Andrews admitted.

NO BETTERMENT IN POLLUTION UNTIL SASKATCHEWAN BREAKS UP

EDMONTON (BUP) — Alberta deputy health minister, Dr. A. Somerville, said that residents of Prince Albert, Saskatchewan, probably won't notice a change in the taste of their drinking water until the spring runoff "cleans out" the North Saskatchewan river.

Dr. Somerville said pollution of the river at Edmonton has been nearly eliminated but it will take longer for unpleasant tastes and odors to disappear at a point 400 miles downstream.

Mayor J. Cuclenaere of Prince Albert charged that the Alberta health officials are trying to shift responsibility for river pollution. The mayor was replying to an earlier report from Dr. Somerville, in which the deputy health minister stated the city of Prince Albert

Happy Royal Kiddies Greeted By Maltese

MALTA — Prince Charles, five-year-old heir to the throne, saluted from the bridge Thursday as the royal yacht Britannia moved into Grand Harbor to the cheers of thousands of schoolchildren and adults lining every vantage point.

Ten marine assault craft escorted the yacht and formations of jet planes flew overhead as the Britannia came into its berth alongside the destroyer Daring, only 50 yards from shore.

Admiral Lord Louis and Countess Mountbatten, great-uncle and aunt of Prince Charles and his three-year-old sister, Princess Anne, boarded the yacht to greet the children who will visit them while ashore.

Picnics and motor trips have been arranged for the royal children who are en route to Tobruk and reunion with their parents, Queen Elizabeth and the Duke of Edinburgh.

Maltese have been asked to treat Prince Charles and Princess Anne as ordinary youngsters, the same friendly treatment they gave the Queen in the days when she was a sailor's wife.

The royal children pranced around the Britannia's deck, waving to Maltese children who jammed the shoreline, ferry boats, and small launches to catch a glimpse of them. The Maltese children and their mothers called back to them by name.

Princess Anne moved around the deck in sprightly fashion, the strong Mediterranean sun reflecting off her golden curls. Prince Charles appeared more interested in the warships anchored a few yards from the royal yacht, and kept pointing to them and asking questions.

\$2,000,000,000.00 SPENT ON DEFENCE NOT WASTED

OTTAWA — Many Canadians think that the over two billion dollars we spend yearly for defence is wasted unless we become involved in war. Such is not the case. We are today training not only infantry but an army of highly skilled technicians, including architects, and civil, electrical and chemical engineers, as well as mechanics of every description.

The Barriefield Camp, situated at Kingston, Ontario, has training schools such as The Royal Canadian School of Signallers, The Royal Canadian Electrical and Mechanical Engineering School, The Royal Military College and The Canadian Army Staff College. Today signallers in the army are not just a bunch of boys taught to send messages by waving flags, but are also trained to operate radar, radio and walkie-talkie sets. In the mechanical engineering school they are taught to make or repair every piece of equipment used in the army, from Centurian tanks to army jeeps, from the smallest steel sprocket to the largest tank crankshaft. In the electrical engineering school the boys are taught to build and repair radar, radio and walkie-talkie sets, as well as a host of other electrical equipment which is useful in industrial and domestic life.

In The Royal Military College the recruits not only get a military education but are taught regular courses in the arts and sciences so that a person taking a four-year course in the military college could attend any one of our Canadian

universities for one further year and obtain their degree. The military college is open to members of the reserve army as well as the regular but the enlisted men receive their education free and are paid wages as well. Members of the reserve army must pay tuition fees.

The enlistment period is for five years and these various courses can be completed in that length of time so that the young recruit who joins the army today can receive a useful education and training that will be of great advantage to him in future life.

Frains

Mrs. Jack Shwetz visited the city recently.

Mr. and Mrs. Sadowski are the proud parents of their first baby girl.

Mr. and Mrs. Dan Shwetz entertained many of their friends for

dinner on Easter Sunday.

A dance was held at Frains Community Hall on April 27. A large crowd attended.

Frains School has been painted and cleaned by Mrs. E. Sawchuk.

Mr. Borris Hussyne is the owner of a new tractor.

Miss Elsie Koltowski is the new teacher for Frains junior room.

Mr. Fred Soloski is home from the University for the spring work.

A large number of people attended the church service in Sar-rail church. Wreaths were placed on the graves in memory of their loved ones.

MEANOOK

Emergency Teacher Training Begins At University In July

EDMONTON (BUP)—The Alberta Cabinet has passed an order-in-council approving regulations governing the special six-week teacher training course proposed by the Social Credit Government to relieve the teacher shortage in the province.

The emergency teacher training program will open at the University of Alberta in July, and education department officials have already started to recruit high school graduates and prospective graduates to the course.

The details of the program are much like those announced during the regular session of legislature by Education Minister A. O. Aalborg when the topic received long and bitter debate. Opposition members claimed the course would lower the standards of teaching in Alberta.

Government members said Alberta is short about 156 teachers this year, and the program would be only temporary, to relieve the shortage, which exists mostly in schools in "fringe" areas.

The regulations, of the order-in-council say the nature and content of the six-week course will be approved "from time to time" by the education minister in consultation with the board of teacher training and certification at the University of Alberta.

The student teacher will not be able to have his certificate renewed after one year of teaching until he has successfully completed a second summer term of instruction, after which he may teach for another term. After teaching for the second term, the student teacher must enroll for a third summer term of training before he can be certified for a third year of teaching.

Those students who successfully complete three summer terms will have one full year of training toward certification as a teacher. No provisions have been made this year for the second and third periods of summer school training but they are forthcoming next year and the year after.

The regulations say a student who is not successful in his first year of teaching cannot return for further training. He must have the recommendation of a superintendent of schools before taking the second summer school program.

As for student qualifications before entering the six-week course, the regulations say the student must be 18 years of age or over, must have obtained his high school diploma or must be taking his Grade 12 and have at least 67 high school credits including English, Social Studies, Mathematics and Science of the Grade 2 level with

an average of at least 60 per cent.

Those students who enroll in the course before knowing the results of their Grade 12 examinations will be allowed to teach for one year, even though they fail several subjects, but they must pass all Grade 12 subjects before they can enter a second summer term.

The students who do not know their Grade 12 results before enrolling must also have a written statement from their high school principals stating they are likely to receive the required "B" standing in their Grade 12 subjects.

The regulations of the order-in-

Cold Lake Airport Has VIP Visitor

COLD LAKE — A "VIP" (very important person) visited the new Cold Lake RCAF base here recently and the report is the Cold Lake is becoming popular as the objective of adventurous youths in the service who want to be posted here. Defence Minister Claxton inspected the RCAF's new \$30,000,000 weapons range in the Alberta hinterland 150 miles north-east of Edmonton.

The camp takes in 4,600 acres of prairie, scrub and muskeg. The firing ranges, where CF-100 all-weather jet interceptors will test rockets and probably air-to-air guided missiles, are 25 miles north of the main encampment.

Construction of the base started in 1951 and the job is nearly finished. The RCAF C-5 plane carry-

council do not state if the student teachers will be required to teach in remote districts where supervisors were previously employed.

ing Mr. Claxton on his tour was \$267,000 over the last five years. The first big aircraft to use the 8,700-foot runway.

The station is ready for use now but so far only a 50-man advance party under Wing Cmdr. Jack Watts, an armament expert, has moved in. The inflow of airmen will pick up gradually and the aircraft are expected this summer.

lost it all on horse-race bets.

News From Other Alberta Towns

Hospital Construction Favored By Landslide Majority Vote

MYRNAM—On Wednesday, April 28, the people of Myrnam Municipal Hospital District went to the polls to vote on the hospital plebiscite. The voters indicated that a large percentage of them are in favor of construction of a new hospital, and proved their interest in the need of such an institution. Following are the complete results received from the eight polls:

	For	Against	Total
Poll 1	101	10	111
Poll 2	45	8	53
Poll 3	180	7	187
Poll 4	117	4	121
Poll 5	137	17	154
Poll 6	63	8	71
Poll 7	44	0	44
Poll 8	182	8	190
Totals	869	62	931

Final Total 931
3 ballots rejected.

The project, when completed will provide the residents with the best facilities as well as a comfortable residence for the nurses and the staff. The existing hospital, after renovation, will serve as the nurses' living quarters. The new building, measuring 42'x50', will contain the operating room, the x-ray room, laboratory, doctor's room, waiting room, secretary's office, nursery, labor room, delivery room, sterilization room. The section of the new building measuring 98'x36' will house the children's ward, public ward, private ward, semi-private ward, utility room, and nurses' station.

The total cost of the project will amount to approximately \$120,000, \$38,000 of which will be in the form of a grant from the Dominion and Provincial governments and the balance will be borrowed from the Provincial Government at an interest rate of 3½%.

The architects in charge of the project are N. C. McKernan and H. L. Bouey. Work on the hospital is expected to begin within two months.

Myrnam H & S Plans Auditorium

The parents and teachers of Myrnam and district met in the school on the occasion of their regular Home and School meeting, April 27.

Mrs. L. Lisevich read the minutes of the previous meeting which were adopted as read. She next read a reply from Mr. Ponich, MLA, to the telegram which the body had previously sent objecting to the proposed short courses for teacher training.

Mrs. T. Arychuk was elected to represent the Myrnam HSA at the annual HSA convention to be held from May 10 to 12 at the University of Alberta.

Mr. Meronyk answered questions on the plebiscite that was taken on the 28th of April concerning the hospital.

Mr. Hocaluk, local trustee, spoke on the School Board's plans to build an addition and possibly an auditorium in Myrnam. He also spoke of the needs of other districts in the division.

The present school water system was discussed at the meeting and since there seemed to be lack of water and some discoloration was present, it was decided that the meeting go on record as requesting connection to the town water system in the future.

The final discussion was about the forthcoming graduation banquet and dance to be held on the 28th of May. The banquet for the graduates, parents and teachers, will precede the dance to be held the same evening.

Goal Reached In Fifth Sale For Red Cross

FALHER—Last Friday, the two hundred dollar objective in the current drive for the Canadian Red Cross Fund was reached and surpassed in a fifth and final sale for that cause.

Under the direction of the local Ladies of Ste. Anne, the drive was begun five weeks ago and consisted of a sale of home baked goods and handicrafts alternating from the Falher General Co-op Store to Falher Trading Co. Ltd. Goods were donated by townspeople and country people alike. Last week, the receipts were sixty dollars short of the goal and it was not thought that the amount would be reached in another sale. However, it was reached, in one of the most successful sales of its kind since the start of 1954.

Donated goods were sold for a total sum of \$61.70, while a raffle on a large crocheted centrepiece, which was won by Mrs. Tommy Dentinger, increased the amount by an additional seventeen dollars. The final total of the five sales is \$221.45. The surplus amount will be contributed to the Red Cross.

A large Teddy-bear donated by the Co-op store as a prize to be won by those who donated went to Mrs. Clifford Hughes of Falher. Serving at the counter were Mrs. Leah Chalifoux and Mrs. Lillian Johnson.

The responsible organization wishes to express sincere thanks to all who have made the drive as successful as it has been.

Bake sales put on by the same group will continue, starting this Friday at the Falher Trading Co. The organization will hold a meeting to decide to which cause the receipts will go.

Two Alberta Students Win Essay Prizes

Two Alberta school children have received honorable mention in the 1953 essay competition sponsored by the Montreal branch of the Royal Empire Society.

They are Baunita Marian Florkewich of Manley school, Carvel, and Diana Gibson of Edmonton. They were entered in the class "C" section for students under 14. The contest is designed to stimulate interest in Commonwealth affairs among school children.

Peace River Region Barley Varieties

Newal, Olli and Vantage are the barley varieties recommended for production in the Peace River region. On the basis of 20 tests conducted on degraded-black-to-black soils over the past three years, Newal and Olli have made an average yield of 63 bushels per acre and Vantage 71 bushels. On the basis of 14 tests conducted on grey-wooded soils Newal has averaged 47 bushels per acre, Olli 49 bushels and Vantage 54 bushels per acre. For the same period at Beaverlodge, Olli matured in 93 days, Newal in 103 days and Vantage in 106 days.

Pox Marks Appear In Rural Areas

RODINO — Since the CBC first reported pox marks appearing on windshields and eye-glasses in various cities across the USA and Canada, people have been on the alert all over.

Last week Mr. G. Beckett of Rodino district found 15 pox spots on the windshield of his truck. The blemishes were derived during the night when the truck was idle in his yard. Upon examining them, it would appear as if fine gravel had been hurled against the glass, but some of the spots are encircled by a cloudy film.

Other farmers have also found the peculiar pox marks on their automobiles. Mr. R. Hollar and Mr. D. Anderson noticed their spotted windshields a week later. During one of the recent snow squalls, Mr. G. Hollar was encountered by sharp three-cornered particles piercing his windshield while he was driving on a district road. He said it sounded like hard snow falling. In a short time the blotches appeared all over the glass.

Livestock Association To Continue Hog Contest

VEGREVILLE — Prize winners for the best percentage of Grade A hogs sold through the Vegreville Livestock Shipping Association for a six-month period during 1953 were:

1. Archie D. Jeffrey, 1st prize, \$25.00—57.57% A's.
2. Arnold Fried, 2nd prize, \$15.00—50% A's.
3. Andy Wyllie, 3rd prize, \$10.00—48.85% A's.

The Association has decided to continue the contest during 1954 taking in a twelve-month period. The purpose of the contest is to encourage the raising of better grade hogs in view of the wide spread in prices of Grade A hogs and lower grades. The minimum number of hogs to be shipped is 25 hogs to qualify in the contest.

Red Cross Drive Highly Successful

MORRIN — The Morrin Red Cross Drive has been successfully completed with the campaign going well over the top. A grand total of \$972.00 was raised and forwarded to Red Cross headquarters, Calgary. The Morrin Red Cross executive wishes to extend a vote of thanks to all canvassers, who so willingly donated their services, and also to everyone who gave to this worthy cause.

Wheat Varieties For the North

Saunders and Thatcher are the only varieties of hard red spring wheat recommended for the Peace River region. Both have given good performances in tests conducted by the Beaverlodge experimental station but Saunders appears generally superior in that area. In the past three years Saunders has out-yielded Thatcher by 1.4 bushels per acre on degraded-black and black soils. On gray-wooded soils the yields were identical. Saunders matured two days earlier.

Lavoy Man Appointed To Vermilion School

W. G. W. Tuck, who graduates this year from the faculty of education at the University of Alberta, has been appointed to the staff of the Provincial School of Agriculture at Vermilion. A native of Lavoy, Tuck will teach academic subjects and supervise the recreation program.

School Superintendent To Meet With Educationists From Ten Provinces

TWO HILLS — Mr. F. Hannon, Superintendent of Schools for Two Hills School Division No. 21, is one of the seventy educationists from Canada's ten provinces gathering at Edmonton for three weeks beginning May 10 to study problems of educational leadership in local communities. He has been selected as a member of a short course for school superintendents offered by the Canadian Education Association in conjunction with the Faculty of Education at the University of Alberta.

Sixty-two of the seventy are

Farewell Party Held For Popular Couple

MORRIN — A farewell party was held on Thursday, April 29, for Mr. and Mrs. Barry Harper who have been transferred to Rimby. Mr. Harper is with the Bank of Montreal. The farewell committee asked the Young Adults to look after the program for the evening and the Canasta Club to serve the lunch.

Mr. Austin Lewis presented the community purse. Mrs. W. R. Stickney presented a cup and saucer from the Ladies' Aid and Mrs. John Rowell presented a cup and saucer from the Canasta Club.

Mr. and Mrs. Harper were secretary-treasurers of the Young Adults and Mrs. Harper also worked with the Mission Band.

Old-Timer Of Provost Cairns District Passes

CAIRNS — Mrs. Mary Elliott, aged 91, passed away in the Drumheller Hospital Monday, April 5.

Born in Nova Scotia, Mrs. Elliott spent some years in Minneapolis. She came to Loughheed where she became Postmistress and was transferred to Provost in 1923. She resided in Provost until she entered the Bethel Home in Wayne three years ago.

Mrs. Elliott was highly respected and liked by everyone in the Provost and Cairns districts. The funeral was held in Calgary April 7. She is survived by a nephew, Rupert Freeman in Calgary.

Pioneer Resident Of Myrnam Passes

Mr. Michael Lynkowski, a pioneer resident of this district since 1909, passed away on Friday, April 23, at the age of 92. Mr. Lynkowski came to Canada from Europe in 1907 and spent two years in the Warwick district, before continuing farming operations in the Myrnam district. He has been living with his youngest son Peter and his daughter-in-law Ina for many years, both on the farm and recently in the Village of Myrnam. His wife predeceased him by thirteen years. Mr. Lynkowski is survived by three sons and six daughters, as well as numerous grandchildren and some great-grandchildren.

Field Secretary Visits Minburn

MINBURN — Mr. Morse Johnson, BA, Field Secretary for Alberta, visited the Mannville, Minburn, Innisfree charge at Minburn United Church Wednesday. A film, "For Every Child" was shown and then discussed.

Mr. Johnson then spoke on the work of the field camp at Naramata. A question period followed, after which the ladies served lunch.

superintendents or inspectors from predominantly rural areas, selected by the Departments of Education in the various provinces. Two are city superintendents. In addition these men will have the benefit of teacher and trustee points of view in their discussions. The Canadian School Trustees' Association has named two members. L'Association Canadienne des Educateurs de Langue Française has named a French-speaking teacher, and the Canadian Teachers' Federation three English-speaking teachers.

Much of the day during the course will be given over to work in groups set up on the basis of problems as described by members in their own superintendency. Two such groups will focus on the improvement of instruction: one with stress on smaller schools and work with individual teachers, the other with stress on larger schools and work with principals. Other groups will study curriculum; developing public understanding of interest in the schools; appraisal and reporting on the work of the schools; and the large unit of school organization.

Power Fire Prevented By Quick Action Recently

VERMILION — What could have developed into a serious fire was prevented by quick action of the dwellers and the fire brigade at the home of Mr. D. E. Brown. A high tension wire was connected wrongly, by mistake, and when the power was turned on, the wires were burnt from the motor to the ground. This caused a good deal of excitement.

The power was turned off and no damage was done to the inside of the house.

Mr. Mervin Wilson of Rosebud, Alberta, arrived at his mother's Wednesday with his sister, Mrs. Frank Chapman and family.

Mr. David Wilson and family spent a few hours with his mother Sunday, May 2, on his way to Cold Lake.

Ray Champagne Trial Adjourned

VEGREVILLE — The Supreme Court trial of Ray Champagne, of Camrose, charged with manslaughter in connection with the death of Steve Hvdjuk, of Vegreville, has been adjourned by Justice B. Wilson until November 1. Hvdjuk died of injuries suffered during a fight outside a beer parlor here last month.

Mildred E. Ruzyski Weds Stanley Berg

LEDUC — Vows were exchanged between Mildred Emily Ruzyski, daughter of Mr. and Mrs. J. Ruzyski of Innisfree and Mr. Stanley Berg, son of the late Mr. and Mrs. Otis Berg of Lacombe, at the home of the groom's sister, Mrs. C. Goertzen of Leduc. The Rev. Clarence Goertzen, brother-in-law of the groom, performed the ceremony.

The bride was charming in a grey gabardine suit with navy accessories. She was attended by Mrs. Abe Docherty of Alix. Mr. Abe Docherty was best man. Miss Angelina Klatt played the wedding march.

A reception was held at the home of Mr. and Mrs. C. Goertzen. The newlyweds are now residing at Big Valley.

Best wishes to the happy couple.

Egg Lake

Patrick Pare has returned home after spending a few weeks at St. Paul and Owlseye.

Mr. Ernest Pare is back home after spending a few days in Edmonton for medical treatment.

Mrs. Edmond Pare left on May 3 for Edmonton where she will receive medical attention.

Harold Olson has motored from Edmonton to spend the week-end with his parents, Mr. and Mrs. H. Olson.

Mr. and Mrs. Jos. Dakin, daughter Margaret, and son Alvin visited their daughter and son-in-law, Mr. and Mrs. Denis Amiot, Sunday, May 2.

Mr. Steve Peterson and Mr. Nick Luc are working in Lac la Biche where a new hospital is being built.

Mr. Oscar Duperron is working for Mr. Robert Lemay.

Grassland

Paul and Marion Davidiuk returned to the city Monday after visiting their brothers, Jack and William.

Easter service for the Ukrainian Greek Orthodox congregation was held on Sunday. Rev. Fr. Zurbitzki officiated at the service, which was followed by the blessing of Easter bread and other foods.

Mr. and Mrs. Dale Mellott were in the city last week.

Igor Lozynsky was a visitor at Ira McKenzie's for the holidays. On his return to his home at Redwater, he was accompanied by Robert McKenzie.

A serious accident occurred in the early hours of Tuesday morning when a light truck owned by Mr. Dave Marriner jumped the ditch half a mile east of Grassland, and landed on its side in a field on the farm of Nick Semenchuk. Clarence Mellott of Boyle, said to be the driver of the truck,

Alberta Agriculture Department Suggests Better Spud Crop

LACOMBE (BUP)—In the Canada-wide search for better potatoes, research institutions across the country are observing, recording and comparing results under the National Potato trials of the Canada Department of Agriculture.

Among those co-operating in this work is Horticulturist H. T. Allen at the Lacombe Experimental Station.

Before a potato variety can be licensed for sale in Canada, it must pass these national tests. Not only does this arrangement guide the grower of his choice of variety, but it protects both consumer and producer against inferior types. To check their regional adaption, varieties under test are grown and compared with standard varieties. Seedlings from special crosses are also tested.

The chief aim at Lacombe, Allen

was only slightly hurt, but Jack Reiner, also of Boyle was seriously injured and had to be taken to Lac la Biche Hospital by Mr. D. A. Sadownik after receiving attention from the municipal nurse at Grassland, Miss Baumgardt.

Miss Helen Sawchyn, who has recently completed a course of education at the University of Alberta, has returned home, and will begin teaching at Caslan on Monday.

Over a hundred people attended the dance at Grassland Community Hall on Monday and enjoyed the music of Johnnie Barabach and his orchestra from Edmonton.

Mr. and Mrs. Wilbert Belanger of Trail, B.C. were visitors at the home of Mr. and Mrs. Dale Mellott last week.

Mr. and Mrs. Fred Ustina and little Stephanie were week-end visitors at the home of Mr. and Mrs. Mike Medwid.

Caslan

Mr. A. Gordon and Mr. and Mrs. Pat Gordon were recent visitors to Edmonton. Earl Gordon returned home with them for a visit.

Mr. Wm. Giblak and Mr. E. Johnson are back working for the summer months on the Caslan section.

Mr. Steve Cherniwchan has gone to Boyle where he is working on the section.

Mr. E. M. Meyer was in Lac la Biche for medical attention.

Alex and Bruce Gordon won the prize money for guessing the closest number of beans in a jar. This contest was sponsored by the Caslan school.

Miss Helen Sawchyn of the Grassland district is teaching the junior room at the Caslan school. She is staying at Mrs. Slamko's home.

Mrs. John Sawka and son Barry of Thorhild visited Mr. and Mrs. Walter Meyer recently.

3-D Pictures Coming To Aurora Theatre

LAC LA BICHE — In April Michael Maccagno, manager of the Aurora Theatre, installed a special wide screen which gives theatre-goers in the district a new thrilling experience for patrons of a community theatre.

Now Mr. Maccagno announces that 3D pictures will come to Lac la Biche with a Sunday midnight show on May 16. Special equipment is being installed and a better quality set of glasses is being supplied for the use of each patron.

Farm product prices reverse their four-month decline.

Tibet, almost twice the size of Texas, has rich deposits of coal, iron, and gold, and may have copper and uranium. There are no roads, railways, or wheeled vehicles there. The average altitude is more than 15,000 feet, making it the highest country in the world.

Poisonous Weeds Cause Heavy Yearly Toll of Livestock

EDMONTON (BUP)—Every year some livestock dies from eating poisonous weeds. Cattle, horses, hogs, and sheep are all susceptible to at least a few plants.

Dr. E. E. Ballantyne, of the Alberta Government Veterinary Services, says that in some instances all parts of the plant are poisonous. He cites as an example loco-weeds, death camas, and low and tall larkspur.

In others, however, it may be the lower part of the stem and rootstock. This is true of water hemlock, which is, perhaps, one of our worst offenders. Cattle are the most frequent sufferers from water hemlock poisoning, though horses and sheep are affected occasionally. Under certain conditions it is dangerously poisonous to all classes of stock. Cattle are also seriously affected by tall larkspur and death camas, calves by low larkspur.

Sheep seem to be the animals most seriously affected by loco-weeds, death camas, and low larkspur.

Spring is one of the worst times for plant poisoning. Animals that are in poor condition when turned out will eat practically anything and the poisonous weeds, especially water hemlock, grow quicker in the spring than grasses and are probably the main greens to eat. Therefore, Dr. Ballantyne advises that cattle going out in the spring should be put on pastures free from poisonous weeds. He further suggests fencing poisonous weed infested areas, herding the stock

away from such areas, feeding minerals and salt so the animals won't have a depraved appetite, and providing good water.

In suspected plant poisoning cases, a veterinarian should be called to investigate, since certain infectious diseases caused by bacteria or viruses often produce similar symptoms. He can perform a post-mortem, note all changes in the body and take specimens for laboratory examination if necessary.

By contacting your veterinarian for diagnosis, your district agriculturist for weed identification and following the precautions outlined above you may eliminate many livestock losses this spring.

Miners May Work On Sugar Beet Farms

LETHBRIDGE (BUP)—Unemployed Alberta coal miners may be hired as sugar-beet workers in southern Alberta this year, in a move designed to relieve the annual spring shortage of laborers at the sugar beet plants.

This was decided at a meeting of top officials of the beet growers, the factory owners and the labor department in Lethbridge.

Director of special services for the labor department, W. W. Dawson of Ottawa, said that not more than 100 farmers could be expected from normal local sources, while about 225 beet-working families will be needed to handle the crop.

The officials decided to investigate the hiring of families of unemployed miners at Coleman, the Nordegg district and the Coal Branch mine near Edson. Other possible sources of labor which were discussed were the employing of Indians from northern Saskatchewan and Alberta.

Vice-president of the Alberta Sugar-Beet Growers' Association, L. M. Jensen, said he will recommend that all beet growers plant their full acreage this year, as the meeting felt a full complement of workers will be available in plenty of time for the sugar-beet thinning.

Potato Growers Are Required To Get Permits

Springtime is potato planting time. In the potato producing areas at Edmonton, Calgary, Brooks and Lethbridge growers must first obtain a permit before planting their potatoes, advises William Lobay, Supervisor of Crop Protection, Alberta Department of Agriculture. This regulation is necessary and very important, Mr. Lobay says, in order that the source of

seed may be checked for a very contagious potato disease, known as Bacterial Ring Rot. Seed is one of the biggest factors in transmitting and disseminating Ring Rot; the grower must be sure that his seed is disease-free to avoid it.

We have gone a long way in controlling Ring Rot in this province and in so doing have improved quality in our stocks to a point where growers and vegetable dealers outside Alberta are developing an interest in our potatoes. In the last few years a number of carloads of potatoes have been shipped to the United States. Disease-free stock must be grown in order to maintain these markets. It is in the interests of the growers that we eliminate Bacterial Ring Rot.

Approved quality seed is not only free of this dreaded disease but also relatively free of some other yield and quality reducing diseases such as Black Leg, Leaf Roll and Wilts and Rhizoctonia. Before a grower can obtain a permit the record of the seed stocks he wishes to plant is checked. There is no charge for the permit.

For the Edmonton area permits may be obtained at Field Crops Branch, Dept. of Agriculture, Legislative Building, Edmonton.

Provincial potato inspection service which was carried out in the fall applies only to growers who have obtained planting permits. Potato stocks cannot be approved if the field was not inspected.

Few centipedes have as many as 100 legs. The common house type has only 15 pairs; the garden variety 21 pairs. Some species have as many as 200 legs.

Alberta Leads Oil Drilling

CALGARY (BUP) — Alberta accounted for 19 of the 28 new wells drilled in western Canada during the week ending April 22.

Of the 19 wells drilled in the province, 15 indicate crude oil production, one resulted in natural gas production and three failed to show oil or gas in commercial quantities.

Since the first of the year, there have been 347 wells drilled in the search for, or development of, crude oil and natural gas in Alberta. Of these, 229 are oil wells, 23 are potential natural gas wells and 95 are dry holes.

Of the 28 new wells drilled in western Canada, 18 were oil successes, one was a potential gas producer and nine were dry holes.

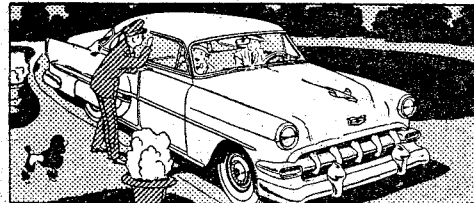

Two of the oil wells were found in Saskatchewan and one in Manitoba. There have been 572 wells drilled throughout the four western provinces and the Northwest Territories since Jan. 1, 1954.

Besides the 347 drilled in Alberta, 141 were drilled in Saskatchewan, 76 in Manitoba, six in British Columbia and two in the North West Territories.

Edmonton Architect Gets Ottawa Post

OTTAWA (BUP) — A 44-year-old Edmonton man, Donald Freeze, has been named director of the Property and Building Management office in Ottawa.

Freeze was a successful candidate in a country wide department promotion competition. He was the former Toronto district architect of the Public Works Department.

Destroyed All Records, 2 Dentists Fined \$1,400

WINNIPEG—Two dentists were fined a total of \$1,400 here under the Income Tax Act for destroying all records of the business they did from 1946 to 1951.

Magistrate D. G. Potter said in imposing the fines on Harvey A. Allen and Isidore Walsh that it was suspicious they should have destroyed the 1951 records so quickly.

"Every professional man knows he should keep records for at least six years so he can be safe," the magistrate said. "These dentists knew that, and if they didn't something was wrong."

Prosecutor M. K. Kopstein said authorities moved to check the books of the two men in 1952. He said no receipts or cheques were discovered although a search was made under a warrant issued by the Exchequer Court.

Defence counsel C. N. Kushner said the prosecution was probably the first of its kind in Canada. He said there was room for improvement in the Income Tax Act as it deals with the retention of records.

"There are very few professional men in the community, and in Canada for that matter, who are aware that these assessments and records must be kept," he said.

Well-Known Cattleman, W. P. Williams, Passes

FORT SASKATCHEWAN — William Percy Williams, well-known Fort Saskatchewan cattle-breeder and exhibitor for more than 50 years, died here. He was 74.

Mr. Williams came to Canada from Wales in 1901. He raised purebred Herefords for many years and retired in 1944.

Mr. Williams is survived by his widow, four sons and two daughters. Funeral services will be held Wednesday.

Modern 5c Postage Stamp Contrasts Sharply With Outdated Mail Vehicles

By HENRY L. THOMPSON

RICH LAKE — The five cent stamp introduces a new era in postal services, further reducing the value of the poor man's dollar one cent. Few people will care to dispute the efficiency of postal services in its various branches, nor will many contradict the fact that their system of receiving tenders for mail delivery service is the poorest paid of any branch of Government work.

Bidding for the job under contract has secured mail carrier rigs, so varied in appearance and use that under any other circumstance, would be considered disgraceful. Horses long abandoned in any other branch of work are still being used. The Rich Lake mail service schedule must depend for delivery across the long abandoned trails simply because twenty years ago this was the only route open between post office points.

Today, the routes must be changed to meet with the progress made in roads, horse and buggy days in mail service among the old abandoned trails is a mark of inefficiency in a service that has long been quoted as an example of fine service among politicians seeking favor with the public vote.

Four separate mail hauler contracts are allotted to serving eight post offices. All but two are on main highways with a paid mileage of one hundred and forty seven miles, when the same routes could be covered by delivery from Lac la Biche by one contract with a paid mileage route of only seventy seven miles.

The service to Rich Lake now, from St. Lina, covers one Post Office, Sugden, which could best be served from St. Lina as all their business is with the towns

on the railway south. All Post Offices on the north side of the Beaver River are serving people with whom the NAR at Lac la Biche would be better handled from that point. Our Municipal, hospital and school services have their headquarters at Lac la Biche. Therefore, it is reasonable to suppose that the majority of people in that area with few exceptions, and there are a few exceptions mainly near the Beaver River and at Helena district on the extreme east section of this area, who would not be helped by change of delivery point in favor of Lac la Biche. However, the big majority today are complaining with regard to St. Lina delivery set-up.

On the grounds of efficiency,

better service and a saving of mounting costs, there is no excuse or shade of excuse for this last addition to our burden of costs in the one cent charge. If those in authority continue to use post office service hooked to the horse and buggy system throughout Canada in the manner that the eight Post Offices north of the Beaver River are handled at the present time. You may look forward to additional added rates for postal service in the not too distant future.

The Alberta Golden Jubilee Anthology

The Golden Jubilee Committee of the Government of the Province of Alberta has announced the publication in 1955 of a volume to contain the best original work of Alberta authors — fiction, poetry, drama, articles and radio scripts; and has appointed an Editorial Board to make the necessary selection. Hereinunder are the rules and regulations to govern the submission of manuscripts.

Eligibility and Rules:

1. Any resident of Alberta is eligible to submit manuscripts.
2. Manuscripts must be original and previously unpublished, typewritten and double-spaced. The editors, however, reserve the right to modify this regulation if necessary.
3. A pen name may be used for publication.
4. Authors desiring the return of unacceptable manuscripts please enclose a self-addressed envelope to facilitate their return.
5. Manuscripts required consist of articles relating to Alberta, historical or general, up to a length not to exceed 2,500 words; fiction on any theme, locale or period, up to a length not exceeding 5,000 words (a shorter length is preferred) poetry not to exceed 42 lines. Radio and dramatic scripts will also be considered. Since the Editorial Board reserves the right to assign feature articles, authors with articles in mind should first write to the Secretary outlining their ideas or idea. Assignment, however, does not necessarily mean acceptance.
6. Under a standard contract agreement with the publisher, McClelland and Stewart, royalties deriving from the sale of the book will be paid to the Edmonton Branch, Canadian Authors' Association. After deducting necessary expenses, the Edmonton Branch, Canadian Authors' Association will pay such monies to the authors published in the book on a pro-rata basis.
7. All rights (inclusive of second rights, reprint, periodicals, TV, and motion picture) are to be held by the publisher.
8. The Editorial Board will evaluate all scripts, reserving the right to alter, rewrite, condense, and combine manuscripts. Final selection of manuscripts, however, will be made by the editors of McClelland and Stewart.
9. The submission of any manuscript signifies an acceptance of all the rules, regulations, and conditions as above stated.
10. DEADLINE—All manuscripts must be in the hands of the Secretary by June 30th, 1954.
11. Manuscripts should be sent by first-class mail to:

**Mrs. Margaret Johnson, Secretary, Editorial Board,
7615 - 111th Street, Edmonton, Alberta.**

Further information may be obtained from Blake MacKenzie, Secretary, Golden Jubilee Committee.
